Paragraph 2 (c)

1. The Security Service of Ukraine has developed measures to strengthen control of international transfers of goods intended for military use and dual-use items in order to prevent their delivery in violation of existing international legal norms prohibiting such deliveries to international terrorist and criminal groups.

2. In accordance with the additional measures taken, provision has been made to ensure that the State Export Control Service of Ukraine considers applications by national entities of foreign economic activities with regard to deliveries by them of goods intended for military use and dual-use items outside Ukraine, with mandatory coordination with the Security Service. Ukrainian special exporters and air-transport operators, the Ministry of Transport, and the State Customs Service of Ukraine have been informed of the need to subject export-import operations involving the goods in question to special control.
